# Core Competency Presentations of Learning Grade 9

WHAT & WHY?

Whether you notice or not, you use your Core Competencies every day inside and outside of school. The goal of this project is for you to create a Presentation of Learning (POL) built on reflection and evidence of these competencies. This project is an opportunity for you to show when you've demonstrated great strength and when you've seen growth over the course of this school year.

HOW?

You will be provided with class time throughout the school year to work on your POL about each of the Core Competencies. Through reflection you will identify times when you have demonstrated the Core Competencies and collect evidence of your learning this year and build your Presentations of Learning.

WHEN?

On June 24 all grade 9's will be required to attend one final day of school where they polish and peer review their POL. On June 25, students will present their POL to teachers and community members. Following this presentation, you will also complete a written self-assessment of all three Core Competencies to be sent home with report cards.

TASK:

For the individual Presentations of Learning, grade 9 students will be expected to...

- Create a professional Presentation of Learning reflecting **all three** Core Competencies.
    - Give at least 2 specific examples of when you have used each Core Competency (inside or outside of school), at least **six examples total.**
    - Explain how you have demonstrated growth in each Core Competency over the course of this school year. Include in here resources and mentors who helped your growth.
    - Describe at least 2 realistic goals for next year (inside or outside of school) in relationship to the core competencies.
    - Explain, in detail, 2 of your career clusters explored during Careers 9. Include at least one work or volunteer opportunity that would help prepare you for one of these career clusters.
    - You will also be responsible for inviting an adult who is significant to your life (parent, relative, family friend) to your presentation and communicating the time and date of your presentation to that person.
- Complete a written self-assessment on **all three** Core Competencies that includes your strength, learning, growth, and goals in each and your potential/plans for improvement.

FAQ:

- Presentations should be 10 minutes in length. Be creative!
- Presentation format is of your choosing.
- Professional attire is encouraged (treat this like an interview).
