April 12th, 2019

Dear Parents and Guardians of **Grade 9** Students,

As per the BC Ministry of Education's new curriculum, we are required to have students in grades 7, 8, 9 and 10 self-assess their learning and growth in the Core Competencies. These competencies focus on the intellectual, personal, and social and emotional aptitudes that all students need to develop in order to engage in meaningful, life-long learning and be self-aware, positive contributors to the world.

Students will demonstrate their understanding of the competencies during the final Presentation of Learning days at the end of June. In order to prepare students for their presentations, our teachers have designed a series of lessons and activities to facilitate this process. Students will participate in lessons in each of their courses, allowing for exposure to multiple perspectives as well as promoting the cross-curricular nature of the Core Competencies. The final day of preparation for this is Monday, June 24th, and it will operate as a full school day.

Our grade 9s will complete a "Professional Presentation of Learning" on Tuesday, June 25th between 12:30 and 3:15 pm.

- Students will be assigned a time for their individual presentation
- Students are responsible for inviting a significant adult from their life (parent, grandparent, neighbour, coach, etc)
- Presentations will be presented to a teacher as well as to the significant adult of their choosing
- During the in-school lessons and work periods, students will receive a presentation outline as well as detailed criteria for their presentation
- Students will be expected to present on their successes, struggles, and growth in each core competency
- Students are encouraged to use examples from both inside and outside of school
- Following their Presentation of Learning, students will complete a detailed written self-assessment of **all three** competencies which will be included with their final report card.

Our grade 9 students are responsible for being in attendance during their assigned time in order to complete their POL. Failure to complete this process will result in the need to attend the "Incomplete" days on June 25th and 26th until the Core Competency requirements are satisfied. Please contact your child's administrator if you have questions.

All lessons are available on our school website under "[Core Competencies](#)" on the "Students" tab drop-down menu. If a student misses an in-class lesson, they may use the provided materials to review the lesson and complete the necessary tasks. Parents/Guardians may also find these materials interesting and helpful as they seek to support their children in the completion of the BC Ministry of Education requirement.

If you have questions, please explore the "Core Competencies" section of our website. You may also contact any of our administrators if you require further information.

Sincerely,
OKM Administration
